"We have always worked with partners to identify potential funding solutions and partnerships. This project is no different."

Yes, this is helpful, but the CID is pursuing the county as a potential funding partner alongside the road and tollway authority, the ARC and others. We would like to get the chairman on record about whether he thinks the county should contribute to construction.

Thanks again,
Meris

Meris,

I texted Chairman and he said this:

"I support the Cumberland CID's efforts to work with The Georgia Department of Transportation to move this project forward."

This work?

Hello Kellie,
I saw the chairman this morning at the CID meeting and I was wondering what his position on the Akers Mill Road ramp is, whether he supports it and whether he thinks Cobb County should contribute to the construction.
Thanks!
