All:

Please see the attached ORR from Tom Cheek regarding the I-285 Pedestrian bridge.

I received a response back from Jim Wilgus. I need to make sure we don't have other supporting documents.

Please let me know.

Thank you.
Carla M Lario

Subject: ORR# 16-222 (Cheek 6/27)

Please start these 2 ORR requests:

1. Any records related to the decision to exclude E4210 from the 2016 SPLOST list in the voter referendum. These records would be from 2014. I am specifically looking for documents related to the decision to include or exclude this project. It was a known project at the time, and I would expect that someone at CCDOT, County Manager, or BOC decided not to include it. This may include draft or working lists that have E4210 as a SPLOST project.

2. Records related to approval or acknowledgement from the Federal Government that Federal funds were approved for E4210, and specifically any required spending needed on the part of the county. In other words, I am looking for documentation that the Feds required a local match for E4210, and if so, the conditions and amount of the required local match.

Thanks,
