Re: Stadium Architect

Dear Tim and Jerry:

Following up on our recent discussions, this letter will confirm that the Atlanta National League Baseball Club, Inc. has selected Populous, Inc. to be the lead architect for the new Braves' stadium project in Cobb County. Populous is one of the top sports architectural design firms in the world having designed the last ten (10) Major League Baseball stadiums including ballparks such as Yankee Stadium, Petco Park, PNC Park and AT&T Park. We conducted a thorough review and analysis of firms including conducting final interviews with Populous and HKS, Inc. and feel very confident that Populous will design a world-class stadium that will stand the test of time. For more information about Populous you may review a number of their projects and their experience at www.populous.com.

Please acknowledge that the County Parties approve of Populous as the lead architect for the Braves' stadium project by signing where indicated below and returning to me as soon as possible so that we are able to move forward and finalize our contract with Populous. Once we have completed our contract with Populous, I will forward a more detailed design schedule and process for your review. Please call me with any questions or concerns. Thank you.

Sincerely,

Mike Plant – EVP, Business Operations

Acknowledged and Agreed to:
