

SKIP SPANN CONNECTOR

Cobb County Department of Transportation KSU PARKING - NEW ACCESS PROJECT FACT SHEET

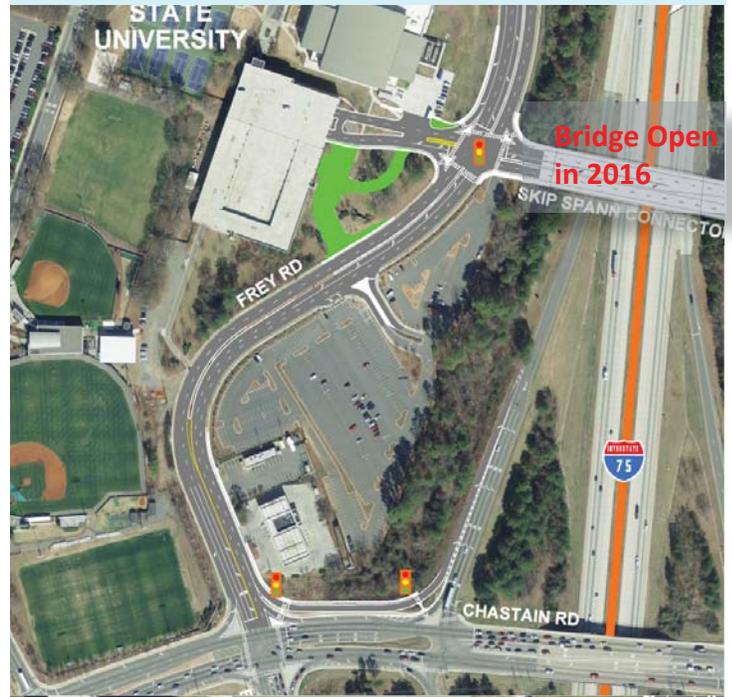

NEW PARKING ACCESS

- As part of the Skip Spann Connector project, KSU will have a new parking access configuration this summer that will affect both the East Parking Deck and East Parking Lot.
- During the week of July 7 to 12, there will be no access permitted to the East Parking Deck, as Cobb County will begin construction of the new access to the parking deck. This parking deck will be CLOSED.**

OTHER IMPORTANT CHANGES

- From the East Parking Lot, the traffic signal will be removed from the current access and a new traffic signal will be installed at the entrance of the new parking deck access.
- There will no longer be a left hand permitted from the East Parking Lot to access Frey Road. A right turn from Frey Road (from the south at Chastain Road) will be the only access permitted. A right turn only onto Frey Road will be the only exit permitted from the parking lot.
- A U-turn will be permitted at the new signal for those exiting the East Parking Lot to access Chastain Road.
- The Skip Spann Connector bridge, noted on the new access map, will begin construction soon with completion of the bridge in 2016.

NEW ACCESS TO KSU EAST PARKING DECK AND EAST PARKING LOT
