Cobb County Department of Transportation is in the process of developing a new plan for pedestrian and bicycle facilities throughout the County!

The Bicycle and Pedestrian Improvement Plan is a 15-month project that will focus on multi-use paths and trails, on-road bicycle accommodations, and sidewalks in unincorporated Cobb County with connectivity to facilities and infrastructure throughout the county and its municipalities.

Public involvement, a key component of the study, will be used to identify the needs of bikers, walkers and joggers of all ages; including school children, seniors and the disabled.

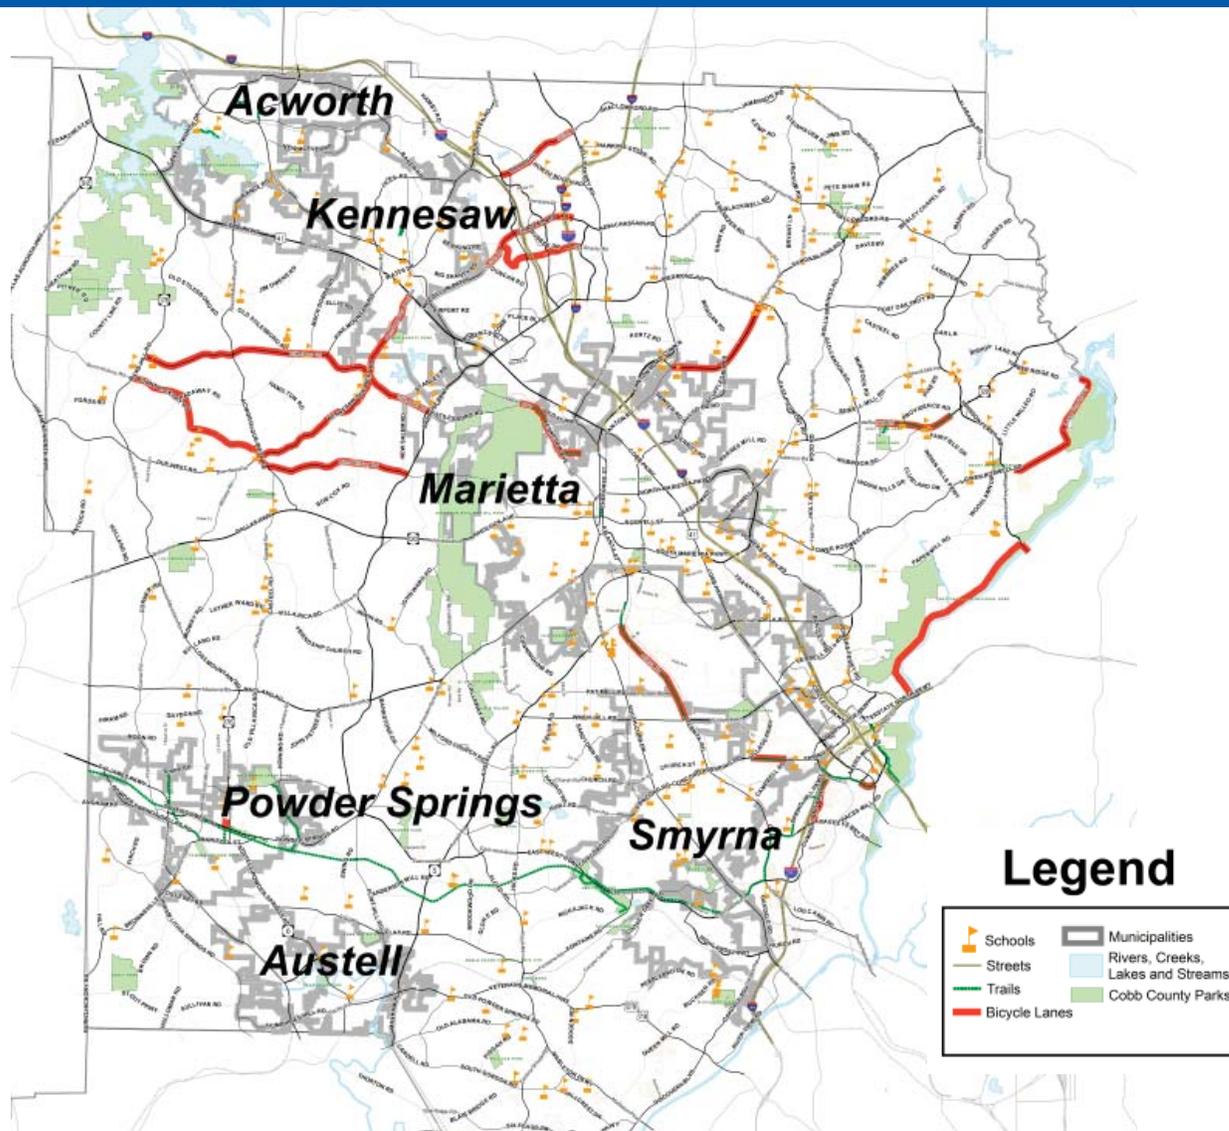

Although the planning process is still in its early stages, you can contact Cobb DOT to be included on the email distribution list and receive updates about this planning effort as new information becomes available.

Cobb County...Expect the Best!
