

# Cobb County Bicycle and Pedestrian Improvement Plan

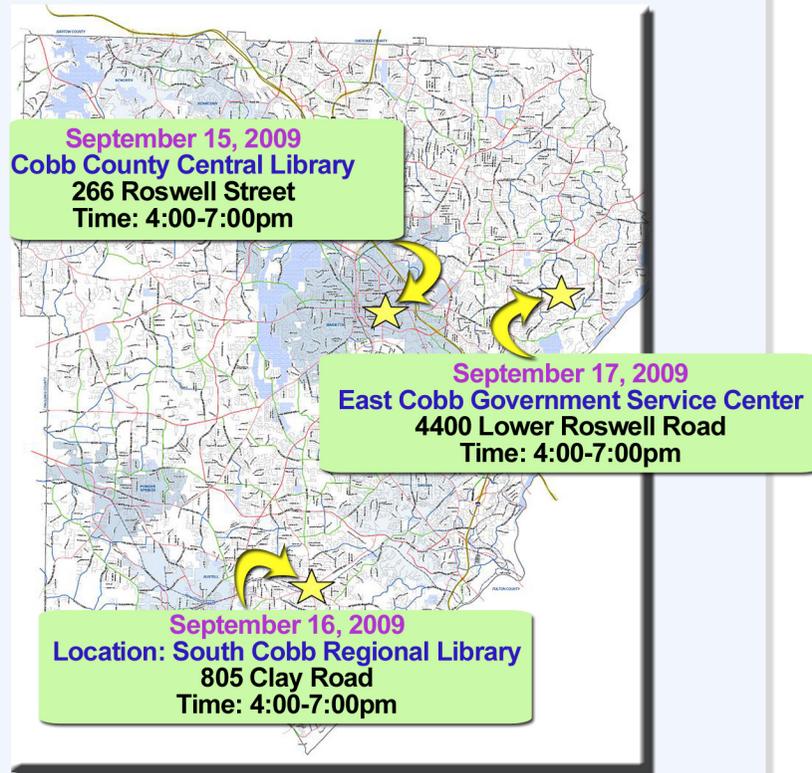

## Public Open House Meetings September 15, 16, & 17

The Cobb County Department of Transportation is completing a 15-month planning project—the *Bicycle and Pedestrian Improvement Plan*—that will identify where Cobb County can improve conditions for bicycling and walking and identify a strategy for investing in those improvements over time.

Bicycle and pedestrian facilities include sidewalks, streets, bike lanes, shoulders, and shared use pathways (like the Silver Comet Trail). The Cobb County Department of Transportation will be displaying the project's findings and recommendations for public review and comment at three public open house meetings around the county on September 15, 16 and, 17, from 4-7 pm each day. See the map at right for locations.

The open house meetings will provide updates about all aspects of the study and what's left to do. Come see how your feedback has helped shape the County's plans for future bicycle and pedestrian facilities.
